

Benjamin Then

Solution Architect

H3C Technologies Co. Ltd.

Benjamin Then is a Solution Architect for H3C Technologies Co. Ltd. Since taking up the role in 2011, he has been responsible for providing pre-sales support for the Hong Kong Market.

With more than 12 years of experience in the IT and networking industry, he has handled a number of major projects for H3C. These include MTRC's highly resilient Corporate Data Network as well as Gaming & Resort Projects in Macau.

Before joining H3C, he worked as a Technical Consultant for over four years at Brocade Communications Systems and Siemens Communications. He holds a Bachelor of Engineering degree in electronics engineering from The Hong Kong University of Science and Technology and is also the holder of a Cisco CCIE Routing and Switching certification.
