

Anson Shen

Solutions Architect, Amazon Web Services

Anson has been working for Amazon Web Services as a trusted advisor for AWS Partners to develop joint product and service offering and define the Go-To-Market strategy with AWS Cloud. With his technical excellence and business acumen, he's helped many AWS Partners to advance in their cloud business transformation journey. Prior to AWS, Anson was heading the Presales Solution team for Vodafone Global Enterprise, North Asia. In his belief, with the worldwide commercial launch of the 5G wireless communication, Edge Computing will evolve and create new possibilities for IoT applications.
